

Covid-19 Coronavirus

SAFETY Procedures

As the Kansas City area is responding to COVID-19, Renuva's essential services are available as we take our staff and client's safety seriously. Equipment is sanitized and daily cleanings have been ramped up. Hand sanitizer and clorox wipes are available throughout the office.

Your health and well-being is our top priority. We want to help and support you during this challenging time. Thank you and we are here for any questions or concerns you have.

PRIOR TO ARRIVAL

- a) Make sure you feel ok. Do not come in if:
 - You have a temperature
 - You are coughing
 - You have body aches associated with the flu

- b) Bring a protective covering or mask for your face if you feel unsafe or at risk, unfortunately we will not be providing them.

ENTERING THE OFFICE

- a) Come as close to your scheduled appointment as possible, always call ahead if you will be arriving early or late.

- b) Our front door will be propped open to avoid touching the door handle

AT THE OFFICE

- a) We will check you in at the front desk, our staff may wear mask for their protection

- b) Chairs will be spaced out around the office. We limit the number of patients allowed to be in the office for added distancing and protection.

- c) All chairs and equipment are sanitized after use.

- d) Sanitizer and wipes are available in several areas in our office for use.

- e) The doctor uses hand sanitizer and/or washes his hands between each patient.
